MOVE POINCIANA

SOUTHPORT CONNECTOR EXPRESSWAY

PROJECT DEVELOPMENT & ENVIRONMENT STUDY

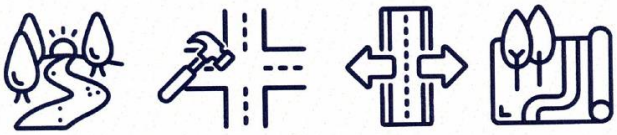

NOVEMBER 2024

Osceola and Polk counties are growing rapidly, with communities like Poinciana leading that change. The Central Florida Expressway Authority (CFX) is working with local leaders to find ways to relieve traffic congestion resulting from Poinciana's rapid growth.

CFX is proposing the Southport Connector Expressway as part of a series of new roadways to help Move Poinciana. The proposed expressway - part of a regional solution - would make it easier to get where you need to go - including to Interstate 4 and Florida's Turnpike.

STUDY DESCRIPTION

- The Southport Connector Expressway could help relieve traffic backups along Cypress Parkway, making travel easier benefitting everyone.
- Elevated expressway in the middle of Cypress Parkway would let people making longer trips get to their destinations more quickly. That also would mean less traffic on the local road.
- Based on community input, CFX is looking at building the elevated expressway on fill dirt with retaining walls; on bridge structures, which would maintain more open, community views; or a combination of both.
- Cypress Parkway would be improved for pedestrians and motorists alike.

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

E-PASS

The Central Florida Expressway Authority (CFX) is an independent agency of the State of Florida that operates and maintains a regional network of expressways for 3 million residents of Brevard, Lake, Orange, Osceola, and Seminole counties and more than 75 million annual visitors to Central Florida. CFX's 125-centerline mile, user-funded system includes 73 interchanges, 14 mainline toll plazas, 5 mainline gantries, 76 ramp toll plazas and 369 bridges. On average, more than 1.5 million toll transactions are recorded daily, nearly 90 percent of them electronically. CFX operates E-PASS, the first electronic toll collection system in Florida, with more than one million E-PASS accounts. For more information, visit CFXway.com.
